Matt,

I just wanted to take a moment to thank you for the outstanding job that you and your team have done with the design and completion of our new Broadway Ford dealership. The professionalism and services that Morgan Construction, Advantage Architecture and the engineers provided us with, from the very beginning, including all of the time you spent assisting in the design of our new dealership and through every step of construction, was second to none. You provided us with a building that met every expectation with our budget. Your project management team was a pleasure to do business with throughout the entire construction process. The quality of the workmanship has, once again, proven to be above average. Although the schedule was hampered by weather at times, your team always found a way to make up time lost through the winter months.

As the owner of Broadway Ford, as well as on a personal basis, we have had the pleasure of working together on multiple projects and I have found your team to always be dedicated and diligent in their efforts and services to exceed all of my goals and expectations. Without reservation, I will always recommend you and your team for your design build and construction management services.

My staff and I are all very much enjoying our new facility.

Thanks again.

Sincerely,

A handwritten signature in black ink, appearing to read "Mont Crnkovich". The signature is written in a cursive style with some loops and flourishes.

Mont Crnkovich
